

## PRESS RELEASE

### MARSHALL COMBS REJOINS GEM TECHNOLOGY INTERNATIONAL, CORP.

Miami, FL, February 1, 2017. GEM Technology International, Corp. (GEM) is pleased to announce the return of Marshall Combs as the GEM DC Program Manager. Marshall will be located in the GEM Washington DC Office and will address all of GEM's served markets including the Department of Energy, Department of Defense, State Department, and Homeland Security. Marshall brings extensive public and private sector experience in the areas of nuclear security, energy security, industrial security, cyber security, critical infrastructure protection, intelligence, counterintelligence and program management activities. Mr. Combs served over 30 years in Federal service and was the Director for the DOE Office of Security before transferring to the private sector. Mr. Combs will be directing marketing and performance of work for all government agencies in the Washington DC area.

Mr. Joe Easton, the President of GEM said "Our management team is excited about the new opportunities and the growth of GEM Technology into new service offerings and expansion into other government agencies. The addition of Mr. Combs to our management team will enhance GEM's ability to continue the rapid growth that it has experienced over the past two years. We welcome Marshall back to the GEM family and look forward to his contributions to our team."

### GEM Technology International, Corp.

GEM Technology International, Corp. (GEM) is a small, woman-owned business (SWOB), recognized at DOE and NNSA sites nationwide for over 20 years for their expertise in safeguards & security (S&S), engineering and program management. Providing technical and administrative support to EM and NNSA, GEM developed comprehensive S&S and emergency management programs; managed the implementation of innovative S&S technologies; and provided direction which resulted in cost savings across many DOE sites. Consistently receiving outstanding ratings and commendations for their work, DOE has recognized GEM with several *Small Business Contractor Awards* over the past several years.
