- 24b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor's website or other location.) The EIT standards can be found at: www.Section508.gov/.**
- 25. Data Universal Numbering System (DUNS) number:** 6 1 7 8 7 4 8 2 1
- 26. Notification regarding registration in Central Contractor Registration (CCR) database:** Registered
- 27. Uncompensated Overtime.** N/A

GEM Technology (GEM) is a premier minority woman-owned, small disadvantaged business support services provider of precision executed High Level Safeguards & Security Services, Physical Security, Investigation Services, Emergency Management, Engineering, Environmental & Safety Services, Cyber Security, and Information Solutions & Services, Intelligence. Our quality staff and experts deliver the right combination of domain and multi-discipline expertise to our clients. As a successful small business, GEM strives to deliver compliant and responsive deliverables that are effective in meeting all client goals and objectives.

GEM is a Federal government contractor providing highly skilled staff on most tasks. For fast efficient contracting purposes, GEM has established several GSA Schedule contracts, and lucrative BPAs and BOAs are in place to substantially curtail the time and effort to award a contract.

GEM offers the SMART WAY™ to do business ensuring the health, safety, and security of the public, the workforce, our National Security, and worldwide Global Environment for all deliverables. Since 1994, Federal government agencies have trusted GEM to help advance mission goals and deliver results. With over 25 years of providing distinguished qualified staffing, GEM brings a thorough understanding of government contracting and the vision of emerging trends in the industry. GEM provides the SMART WAY™ to deliver to our clients highly reliable and effective solutions that incorporate the most current technologies and tools available to help foster productivity and increase productivity.

Safeguards & Security

GEM has more than 25 years of progressively responsible experience at various Federal government Agencies providing expert safeguards and security services. Our professional experts have extensive experience in all disciplines of safeguards and security and provide security support to our flagship customers – the Department of Energy (DOE), the National Nuclear Security Administration (NNSA), and the Department of Homeland Security and (DHS). GEM also provided support for many commercial customers that manage multiple DOE nuclear facilities, laboratories, and environmental sites nationwide.

- Security Policy Development and Implementation
- Vulnerability and Risk Assessments
- Protection of Classified and Sensitive Information
- Technical Security
- Protective Forces
- International Nuclear Safeguards
- Cyber Security
- Emergency Management

Environmental Management

GEM provides exceptional support by establishing, assessing, and maintaining the proper facility and operational safety authorization basis, and the maintenance of effective integrated Safety Management Systems at most of the DOE/NNSA facilities. Our environmental engineering staff and site remediation programs have assured compliance with all regulations and provides the basis for effective clean-up of contaminated facilities/sites and the return of work areas to their original environmental state.

- Health & Safety
- Environmental Planning, Regulatory Compliance, & Permitting Services

- Engineering Site Remediation
- Site Characterization
- Solid, Hazardous, & Mixed Waste Management
- Multi-Media Sampling, Sample Management, & Quality Control

Engineering

GEM's innovative engineering assures appropriate design and effective system integration. Fundamental to GEM's success is the commitment of our professional engineers to our customer, and fully guaranteed work.

- Electrical Engineering & Instrumentation
- Mechanical Engineering
- Biological & Industrial Engineering
- Nuclear Engineering
- Structural & Civil Engineering
- Systems Integration
- Electronic Data Management
- Project Control & Cost Estimating

Personnel Security

GEM currently provides multi-level physical security, personnel security and high-level access control services to several agencies nationwide, and provides security support to worldwide US entities under several contracting BOAs and other contracting vehicles. In addition, GEM senior security and management specialists conduct interviews, adjudication and final reviews for employment worldwide. GEM implements national policy and integrates programmatic support among its Federal, State and local partners, and has the ability to respond to incidents domestically and worldwide.

- Administration and Project Management
- Program Management Support
- Security Support Services
- Physical Security & Access Control Services
- Training Services
- Counterintelligence
- Role Players

Counterintelligence & Counterterrorism

GEM has been providing specialized Counterintelligence (CI) and Counterterrorism (CT) support in the areas of technical, management, and administrative services for implementing proactive and preventative processes to deter and counter threats to national security. GEM relies on the leadership and experience of its highly effective staff with backgrounds in criminal investigative programs such as the Federal Bureau of Investigation (FBI), Department of Energy (DOE), National Geospatial Agency (NGA) and the CI Community to support program needs.

- GEM's Counterintelligence and Counterterrorism Support
- Program Management Services
- Security Services
- Emergency Management Services
- Training Services
- Logistics and Administrative Services

Cyber Security

GEM relies on the leadership and experience of its highly effective staff of cyber experts with over 10 years of experience in Information Technology, Cyber Security, Systems Engineering, Systems/Network Administration, and conducting complex cyber investigations; applying industry-leading tradecraft and cutting-edge cyber capabilities to support this evolving and growing priority. GEM'S Certified Information Systems Security Professional (CISSP)-certified cyber professionals engineer, test, and integrate various Network Defense technologies including Snort Intrusion Detection System (IDS) sensors, SourceFire IDS, Blue Coat Security Analytics Platform, HBGary Active Defense, FireEye, and Host Based Security System (HBSS) modules in compliance with Intelligence Community (IC) security standards.

- GEM's Cyber Security Support
- Program Management Services
